DESCRIPTION

OBJECTIVES :

The first year* of the master's degree in « International and European Law » is a French national degree, taught in English, fully recognized in Europe and complying with the Bologna process. This one-year program equals 60 credits in the European Credit Transfer System (ECTS).

The MIEL aims at giving students a thorough knowledge of the private and public aspects of international and European legal issues.

The programme offers a comparative perspective, focuses on methodology with a view to providing the students with the tools needed to hold positions as lawyers in an international and European context.

A study trip to Brussels is organised for students to discover the European Institutions.

* In the French system, the master's programme is divided into two years: Master 1 (first year) and Master 2 (second year).

At the end of the degree, students who pass the exams acquire 60 ECTS credits and are entitled to apply for the second year of the Master's degree in France.

In particular, the MIEL gives the opportunity to apply for the second year of one of the Master's degree programs taught in English (or both in English or French) at Toulouse 1 Capitoile University, in the following areas of study:

- Comparative International Law,
- International Economic Law,
- Private International Law.
